Turn Store Manager for PrestaShop to Your Advantage

✅ A Cut Above the Rest!

Store Manager for PrestaShop is a fully functional, complex solution for smart and **effective store management**. There's everything you need for building up your online business success with less effort and resources. If modules solve specific tasks separately, Store Manager solves them altogether and within the same setting. It is designed to speed up and **simplify all the operations** within your store - product, category, customer and order management, and much more!

✅ Easy-to-use and Intuitive Interface

If comparing Store Manager to standard web store admin panels, it's not designed to make you think, but does all the thinking for you. All you need to do is operate the user-friendly interface and enjoy your business elevation. Get faster updates and easily run multiple stores within one tool.

✅ World-class Support and Software Updates

For the first-rate software provided by MagneticOne, we ensure the highest quality of support. Store owners can not only enjoy the advanced functionality of Store Manager for PrestaShop, but also get paid access to the latest releases and updates, download the most recent software versions, improvements and new features.

Store Manager for PrestaShop is Your Path to Advanced Benefits

✓ Spend an Hour, Save a Day

Store Manager for PrestaShop was designed to work for you and not at the expense of your business. It is your personal assistant that does all the routine tasks, **saving you tons of time** for greater deeds. For that matter, it provides with ready-made export/import features, report tools, advanced addons, etc. No need to spend a day getting deep into how your store works, spend an hour understanding how Store Manager does the job for you.

✓ Take Your Online Business to the Bank

Buy one Store Manager instead of multiple modules. Use one Store Manager license to **manage your multiple stores**. Store Manager doesn't require any special skills, so you don't have to pay someone to keep your store database organized. You can implement all the necessary updates yourself with Store Manager for PrestaShop and get on to important tasks.
